1500 CLAIM FORM INSTRUCTIONS: BACKGROUND INFORMATION

The 1500 Health Insurance Claim Form answers the needs of many health payers. It is the basic paper claim form prescribed by many health plans for claims submitted by physicians and suppliers, and in some cases, for ambulance services.

In the 1960s there were a number of different claim forms and coding systems required by third-party payers to communicate information regarding procedures and services to agencies concerned with insurance claims. However, there was no standardized form for physicians and other health care providers to report health care services. Therefore, the American Medical Association (AMA) embraced an assignment in the 1980s to work with the Centers for Medicare & Medicaid Services (CMS; formerly known as HCFA), and many other payer organizations through a group called the Uniform Claim Form Task Force to standardize and promote the use of a universal health claim form. As a result of this joint effort, the 1500 Claim Form is accepted nationwide by most insurance entities as the standard claim form/attending physician statement for submission of medical claims.

With the transition to an increase in electronic claims submission and the Health Insurance Portability and Accountability Act (HIPAA) regulations, the Uniform Claim Form Task Force was replaced by the National Uniform Claim Committee (NUCC) in the mid 1990s. The NUCC's goal was to develop the NUCC Data Set (NUCC-DS), a standardized data set for use in an electronic environment, but applicable to and consistent with evolving paper claim form standards. The NUCC continues to be responsible for the maintenance of the 1500 Claim Form. After considerable research to determine if the claim form needed updating in the late 1990s, the NUCC determined that the cost to implement any changes to the form at that time would exceed any projected gains.

Although many providers now submit electronic claims, many of their software/hardware systems depend on the existing 1500 Claim Form in its current image. Minor changes have been made to the form in order to accommodate the National Provider Identifier (NPI) as well as other identifiers.

The following 1500 Claim Form instructions were approved by the NUCC in November, 2005. The NUCC will continue to research the type of data that are typically reported in the "reserved for local use" fields as well as the required data elements in the other fields that may apply to public and private payers. Therefore, the instructions will continue to evolve. The ultimate goal of the NUCC is to develop standardized national instructions. The end result may require additional changes to the 1500 Claim Form in the future.

The instructions in this manual are not specific to any applicable public or private payer.

Version Releases

Updated versions of the 1500 Claim Form Reference Instruction Manual will be released yearly on July 1.

Any changes, clarifications, or errata will be listed on the NUCC website, at www.nucc.org under the 1500 Claim Form tab, with the issue and effective date of the change.

Maintenance Process

1. Requests for clarifications or changes to the 1500 Instruction Manual should be submitted by completing the 1500 Claim Form Instructions Change Request Form (see Attachment 1 to Appendix D). The request/form can then be emailed to Nancy Spector, NUCC Chair, at nancy.spector@ama-assn.org.
2. The Data/1500 Subcommittee will review the requests for changes or clarifications to the 1500 Instruction Manual. The subcommittee's review may include any of the following:
 - coordinating the request with requirements outlined in the 837 Professional implementation guide adopted under HIPAA,
 - gaining a wider understanding of the industry's need related to the request,
 - gathering additional data, when necessary, on the overall impact of the request, and/or
